

EMPOWERING YOUTH, SHAPING FUTURES

Junior
Achievement™
of New York

ANNUAL IMPACT REPORT 2022-2023

WELCOME

Junior Achievement of New York has been at the forefront of inspiring and preparing young people to succeed in a global economy for more than 95 years. Our programs provide students with the knowledge and skills they need to navigate the challenges and opportunities of the modern world.

The past year has been one of tremendous growth as we continue to expand our programming throughout New York City, Long Island, and the Lower Hudson Valley. During the 2022-2023 academic year, JA New York provided nearly 68,000 student learning experiences, an increase of over 66% from the previous year. That's more than 345,000 contact hours of content-rich curriculum provided by thousands of trained volunteer partners.

Whether it's showing them how to budget, or introducing them to career paths they may not have known about, we're not just preparing students for their futures, we're helping them to *create* their futures. Our programs empower young people to dream big, think boldly, and take actions that shape their pathways to achieve all that they can.

Your continued support helps fuel this mission and ensure that our young people have the tools they need to turn their classroom lessons into thriving businesses, overcome adversity, graduate with newfound passions, and become leaders of the future in their communities.

Sincerely,

Betty A. Garger

President and CEO

Keith Dinniger

Chair of the Board of Directors

JA IMPACT

BY THE NUMBERS....

90%

of JA alumni report that JA played an important role in believing they can achieve their goals.

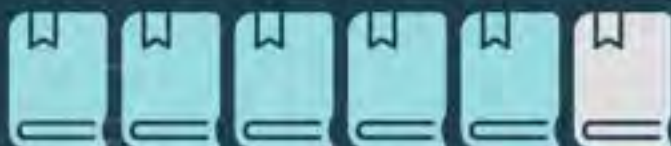

89%

of JA alumni report that JA motivated them to succeed in their professional lives.

90%

of JA Alumni say JA exposed them to a different way of thinking.

87%

of JA alumni report that JA played an important role in their personal development.

85%

of JA alumni report that JA increased their confidence in new situations.

Program Highlights

JA Inspire

JA Inspire is a dynamic career development experience that gives middle and high school students the opportunity to explore exciting careers and learn about the critical skills employers are seeking to help them plan for the future and improve their skill sets to become the workforce of tomorrow.

Bringing together the business community and local area schools, *JA Inspire Virtual* is designed to launch students into their future by using an interactive platform that provides them with access to local employers, learn about post-secondary education opportunities, attend webinars, and participate in interactive discussions with company representatives.

Program Highlights

Social Innovation Challenge

Brought to you by 

The *JA Social Innovation Challenge* is a national competition where high school students are invited to submit their innovative ideas for improving and making an impact on their communities. The student teams with the top-rated ideas are eligible to participate in an exclusive, virtual workshop experience during which Chick-fil-A innovation experts and entrepreneurs will provide additional guidance and resources for transforming the students' ideas into reality.

In 2023, two teams of students from Harborfields High School represented Junior Achievement of New York and were selected as first and third-place honorees at the second annual national *JA Social Innovation Challenge*. The winning teams were selected from more than 90 participating teams from schools across the country.

Program Highlights

JA Finance Park

In March 2023, we welcomed students back to *JA Finance Park* in person for the first time since 2020 at our new site-based location at City Point in Brooklyn.

The Finance Park experience places students in fictional adult roles where they take what they have learned in the classroom curriculum and apply it to balance a personal family budget. During their visit, the students make decisions about budgeting, saving, and investing, and make choices in over a dozen financial categories including housing, transportation, child care and healthcare.

Program Highlights

JA Job Shadow + JA Career Speaker Series

JA Job Shadow and *JA Career Speaker Series* events inspire and motivate students by exposing them to professionals from a variety of industries who share insights into their job roles, career paths, and the skills required for success in their respective fields.

These experiences are invaluable for students as they explore potential career interests, learn about job responsibilities, and gain a better understanding of the skills and qualifications they need for various professions.

Student of the Year

Maiya Adolphus

Baldwin High School

Each year, JA New York selects a high school student to serve as our Joseph A. Peri Student of the Year.

JA New York's 2022 honoree was Maiya Adolphus from Baldwin High School. Maiya credits her participation in Junior Achievement events with giving her the confidence to pursue her future career path as a Biomedical Engineer and with inspiring her to become more involved in the community, volunteering with a local organization that helps autistic development.

JA experiences provide thousands of high school students like Maiya with unique opportunities to explore careers and network with our community of professionals who are passionate about helping students succeed.

Watch Maiya reflect on
her JA journey here

Special Events Highlights

Special events at JA New York play a pivotal role in bringing the JA community together to celebrate our work and help provide impactful learning experiences for thousands of students annually. We are grateful for the support of our partners through events such as our annual Leadership Awards Gala, our JA New York Golf Classic, and as part of peer-to-peer fundraising events who help ensure we can continue to inspire curiosity, creativity, and critical thinking, equipping young minds with the tools they need to succeed in an ever-evolving global economy.

SCHOOL PARTNERS

JA New York recognizes our top tier school partnerships with gold and silver credentials. Year-round commitments to programming distinguish these partnerships, with gold partnerships exemplifying the pinnacle of school involvement.
